BILLS

Telephone bills are rendered once a month and are due on presentation.

When paying in person, please have the bill with you. Any telephone bill may be paid at any of the offices listed on the back of the bill.

When paying by mail, please send payment to the P. O. Box Number shown on the return envelope accompanying the bill, or to the Business Office. Payment should be accompanied by the stub. If the stub has been mislaid, please write your telephone number on the check.

Service charges are billed for one month in advance of the billing date. Out-of-town calls and additional local calls are billed for one month prior to the date of the bill.

DISPLAYING TELEPHONE NUMBERS

It will be a convenience to those who may wish to call you, and will help to speed service, if you will print your telephone number on stationery and elsewhere just as you do your street address.

Although we cannot guarantee that any number will be permanent, we make no changes in numbers except when the needs of the telephone system itself make it essential to do so. When a number is changed, we give as much advance notice as possible.

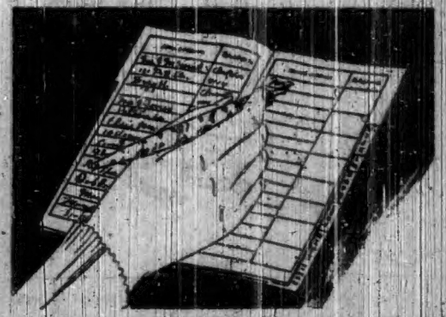
For this 14-page booklet containing suggestions and free advertising helps, dial 811 or call the Business Office.

DIRECTORY AND INFORMATION SERVICES

It is important to your service that you first know the number and then that you dial it or give it to the Operator accurately.

For this reason every subscriber in Brooklyn is given a directory every six months listing all Brooklyn subscribers. A classified directory listing all business subscribers under business headings is also furnished as a convenient shopping and service aid.

Directories are also available for Manhattan, The Bronx, Queens, Richmond and suburban points. To give these books to all Brooklyn subscribers would be an inconvenience to most subscribers and a needless expense to the Company. In cases where they are required, they are furnished upon request. Otherwise it is better to get numbers from Information, and keep them on a personal list. We also furnish, free of charge, attractive booklets for listing telephone numbers.



For a free copy of this booklet dial 811 or call the Business Office. It's a handy place to list the numbers you frequently call.

When you get a new directory, please check your own listings, and if incorrect notify the Business Office at once so that we may adjust our records for the next issue and protect your service in the meantime.

Additional listings and advertising may be arranged for by calling the Business Office.

All telephone directories are the property of the Company. When lost or mutilated, the Business Office will replace them. To prevent mistakes, we ask that obsolete issues be returned when later ones are delivered.

The Company is not liable for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory.

1939

Useful Information about the Service

CHARGES FOR LOCAL SERVICE

There are two general methods of charging for telephone service in Brooklyn—

Message Rate Service

The monthly rate for this service pays for all outgoing local calls up to a certain number. A charge is then made for each call over that number. No charge is made in case your call is not completed because of a "Line is busy" or "Don't answer" condition, or for any other reason. If you get a wrong number, call this to the attention of the Operator.

New York City is so large and its telephone system so complex that it has been necessary to divide the city into zones. Each call to a nearby zone counts as one call. Each call to more distant zones counts as two and in some few cases three calls. The Operator will be glad to tell you whether any call you wish to make is a one-, two- or three-call charge.

Our message rates provide for an overtime charge on all local calls of more than five minutes. However, we do not make this charge within the one-call range unless the time is materially in excess of five minutes. At most public telephones, however, the overtime charge is made for all calls.

Flat Rate Service

The monthly charge for this service, which is furnished on a residence basis in Brooklyn, pays for an unlimited number of outgoing calls to points in a restricted area. The Operator will be glad to tell you whether any call you wish to make is within this area.

HOW TO DIAL

If you are not sure of the number, look in the directory.

If the number is not in the directory, dial 411.

Dial the first two letters of the central office name, the office numeral, and each figure of the line number.

Let's say the number is FO xeroft 9-9970.

Remove the receiver.

Listen for the dial tone—a steady humming sound.

Place your finger in the opening over the letter "F".

Move the dial clockwise until you strike the finger stop.

Remove your finger and allow the dial to turn back. Do not push the dial back.

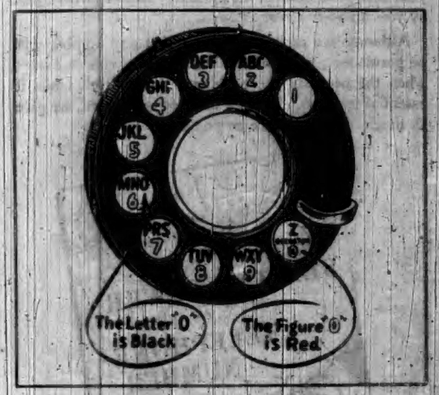
Dial the letter "O" (in black) in the same way.

Then dial the figures 9, 9, 9, 7 and 0 (in red) in order, followed by party letter, if any, of called party.

When you hear a burr-burr-burr sound, the called telephone is ringing.

If you hear a buzz-buzz-buzz sound, the called telephone is busy.

If you hear a buzz-buzz-buzz-buzz sound, you have made an error in dialing. Hang up for a few seconds and begin again.



If you make a mistake in dialing hang up for a few seconds and begin again.

If you have trouble dialing a number, hang up for a few seconds. Then dial the opening where the word "Operator" appears, and she will help you.

Dial direct all calls to central offices within your direct dialing area as shown on the dialing area card that has been furnished you, copies of which may be obtained at the business office. Dial "Operator" for all other calls.

Useful Information about the Service

(Continued)

IDENTIFICATION OF EMPLOYEES

Every employee of the Telephone Company authorized to install, inspect, repair or remove the Company's apparatus carries a metal badge showing the Company's name and his own number. We suggest that subscribers refuse access to their premises to anyone who represents himself as from this Company, but who cannot identify himself in this way.

ATTACHMENTS TO TELEPHONES

The Company does not sanction the use of any devices except those furnished by it. This is in the interest of good service, since many of the devices offered for sale which are claimed to improve the service actually interfere with the service. Where ordinary equipment does not meet any particular need, the Company is ready to furnish special equipment at reasonable rates.

VISITS TO COMPANY BUILDINGS

We are glad to welcome telephone users at our central offices. The operation of our switchboards, the maze of wiring and cable arrangements, the delicate machinery of our dial offices, and other features of our business, are of great interest to thousands who have seen them. Ask the Business Office (Dial 8 1) to arrange for your visit.

PRIVACY OF TELEPHONE SERVICE

(Extract from Penal Law.)

A person who wrongfully obtains, or attempts to obtain, any knowledge of a telegraphic or telephonic message by connivance with a clerk, operator, messenger or other employee of a telegraph or telephone company, or being such clerk, operator, messenger or other employee, willfully divulges to anyone but the persons for whom it was intended, the contents or the nature thereof of a telegraphic or telephonic message or dispatch entrusted to him for the transmission or delivery, or of which contents he may in any manner become possessed, * * * is punishable by a fine of not more than one thousand dollars or by imprisonment for not more than two years, or by both such fine and imprisonment.

OBSTRUCTING COIN TELEPHONES

(Penal Law, Section 1432-a.)

It is provided by the Penal Law as amended March 24, 1933, that any person who shall prevent or contrive to prevent the return of coins to the users of coin telephones, or cause such coins to be unlawfully returned, or who shall by any device or means interfere with the action or operation of such coin telephones, shall be guilty of a misdemeanor.

1939

Principal Telephone Services and What They Cost

These services will meet the needs of telephone users in Brooklyn in nearly all cases. Other special services to meet special needs are available in great variety. If you wish any of these services, or if you want more information, dial 811 or ask the Operator for the Business Office. You will be connected with a Representative who is familiar with your account.

Rates shown are subject to change without notice.

RESIDENCE SERVICE

Telephone service in the home saves work, energy, time and money, promotes social enjoyment and provides protection in emergencies.

Monthly charge for individual line service which pays for 66 outgoing local calls . . $4.25
Charge to put in $3.50

Additional local calls: 5c for each call between 66 and 300; 4½c for next 300; 4c for next 300 and 3½c for all others. Calls are charged as one, two, or three local calls, depending on distance from your own Central Office. For typical out-of-town charges see pages 9 and 10.

Party Line and Flat Rate service are also available.

EXTENSION TELEPHONES IN THE HOME

The bedroom, the kitchen, the den, the library, the guest room—none is quite complete without a telephone. Extensions save time in household work, afford added convenience, and permit complete privacy.

Monthly charge with message rate service . . 50c
Charge to put in $2.00

Flat Rate Service Charges will be furnished on request by the Business Office.

PORTABLE EXTENSIONS IN THE HOME

Portable telephones can be carried about and plugged in just like electric lamps wherever needed. They not only save steps, but are in keeping with the up-to-date modern furnishings of any home.

Monthly charge with message rate service . . 50c
Charge to put in each outlet $4.00

Portable telephones are also available to business users at slightly higher rates.

Flat Rate Service Charges will be furnished on request by the Business Office.

ADDITIONAL LINES

With an added line the smaller business has an extra doorway for telephone calls. With enough lines, the business is made as accessible by telephone as it is through personal visits. While calls are being made over one line, the other line is available for calls also. Additional lines in the home are furnished at somewhat lower rates. Charges for additional lines will be furnished on request by Business Office.

BUSINESS SERVICE

Telephone service speeds up business transactions, opens the door for telephone orders, aids in selling and buying. The progressive business is known to its customers by the adequacy of its telephone service.

Individual Line Service

Monthly charge which pays for 75 outgoing local calls $6.00
Charge to put in $5.00

Additional local calls: 5c for each call between 75 and 300; 4½c for next 300; 4c for next 300 and 3½c for all others. Calls are charged as one, two, or three local calls, depending on distance from your own Central Office. For typical out-of-town charges see pages 9 and 10.

Private Branch Exchange Service

This consists of a switchboard of suitable size located on the subscriber's premises, extension telephones connected to the switchboard, and trunk lines from the switchboard to the central office.

Monthly charges for message service:

Switchboard	Depends on size
Extension telephones, each	80c
1st trunk, including 75 outgoing local calls	Individual line rate
Additional trunks, each	$2.50
Charge to put in	On application

EXTENSION TELEPHONES IN BUSINESS

Conveniently placed telephones connected to your main line save delay in answering and making calls. They save energy, eliminate confusion, and assure privacy.

Monthly charge with message rate service . . 80c
Charge to put in $2.50

DIRECT LINES

Where frequent communication is required with branches or important customers, private wires afford instant direct communication without going through our central offices. They frequently cost less than service connected to the central office.

TELETYPEWRITER SERVICE

This service transmits the written word just as the telephone transmits the spoken word. You can be connected with anyone in the United States having the same service. You can transmit rush orders and information to factories, branches, warehouses, or to different departments of the business. Both the sender and receiver have typewritten copies of each message and as many as six copies can be made by each teletypewriter. Teletypewriters can be operated by anyone who can operate a typewriter. Charges are made for local and out-of-town messages depending on the distance and the length of period the service is used, with a minimum guarantee of $10 a month. No charge is made to put in the machines.

Private line teletypewriter service, not connected to the general system, is also available.

WIRING PLANS

Wiring plans are special arrangements that give services not available with the usual main and extension telephone services. There is no charge to install these services, and monthly charges vary. Wiring plans are easy to operate and have some or all of the following features:

Privacy. When you want to use your extension telephone without being overheard by someone else on the line, a cut-off arrangement will insure privacy.

Intercommunication. Occasions often arise when it is desired to telephone others on the same premises. A proprietor may desire to give instructions to his employee. A housewife may wish to talk to her servants. A wiring plan makes it possible to talk directly between main and extension telephones without calling the operator.

Pick-up. Calls can be made or received over more than one line from the same telephone. It is helpful in cases where one person uses more than one line or when one person answers calls for a second person who is absent.

Holding. The holding feature is of great value since it permits you to have someone wait on one line while you make or receive another call at the same telephone over a second line.

INTERCEPTING EQUIPMENT

This makes possible the answering at one point of any number of telephones while employees are away from their desks or talking on other lines, thereby reducing customer annoyance and congestion of your telephone lines. The charge varies with the requirements to be met.

TIME-OF-DAY SERVICE

The correct time may be obtained by dialing or calling MEridian 7-1212 at any time during the day or night. The charge from message rate stations is one local message. From all other stations the charge is five cents.

EQUIPMENT FOR THE HARD-OF-HEARING

People who have difficulty in hearing over the telephone may have a service that amplifies the voice heard in the receiver. Persons whose hearing is normal may also use the instrument without difficulty.

Monthly charge $1.75
Charge for changing telephone $1.50

Similar equipment is available to all customers in Brooklyn at the following attended public telephone locations:

Long Island R. R. Term. . . . . Flatbush Ave.
Supreme Court Bldg. . . . . Joralemon St.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Postal Telegraph Cable Company or the Western Union Telegraph Company following the instructions shown under its listing in this directory. The telegraph charges will appear on your telephone bill. You may also telephone your telegrams from public telephones, paying as you would for a telephone call.

CONFERENCE TELEPHONE SERVICE

A number of people, in the same city or in different cities, can talk together by telephone as if around a table. To place a conference call, or to secure the rate or other information regarding the service, dial 211 or call Long Distance and ask for the Conference Operator.

SEQUENCE CALLING

If you wish to make a large number of out-of-town calls in rapid succession with little waiting between calls, you may file with the Company a number of calls at one time, preferably in writing. The operator will put through each succeeding call as soon as the previous one is completed. Printed forms for convenience in making up these lists will be furnished by the Business Office (Dial 811).

TOLL CREDIT PLAN

Credit identification cards are furnished to travelling representatives of business concerns. Telephone calls can then be made from any Telephone Company business office in the United States and the charges billed to the home office. Representatives do not need to carry cash for telephone calls, and the home office has information as to the telephone selling activities of its representatives.

OTHER SERVICES

Other services which can be readily supplied by the business office include hand telephones, black or in color, of the desk or hang-up type; extension bells and gongs; signal lamps; head receivers; chest transmitters; outdoor telephones; paging systems; house-closed service; key-town selling and other aids to economical out-of-town telephoning; and many others.

1939

Out-of-Town Calls

From your telephone in New York City you can be connected with millions of telephones in the United States and Canada, Central and South America, the British Isles and Europe, Africa, Asia, Australia, Hawaii and other island groups, and with ships at sea.

OUT-OF-TOWN CALLS are as easy to make as local calls, and in most cases they go through while you hold the line.

If you do not know the number, dial 411, or ask the Operator for "Information."

STATION-TO-STATION CALLS. When you want the Operator to do nothing more than connect you with the desired telephone, tell her the city and the telephone number.

PERSON-TO-PERSON CALLS. When you want to be connected with some particular person or a particular telephone connected to a private switchboard, dial 211 or ask for "Long Distance." Tell the Operator who answers the name of the person, the city and the telephone number.

If you are not sure of the exact whereabouts of the one you wish to reach, "Long Distance" will try to find him for you.

APPOINTMENT AND MESSENGER CALLS. The Long Distance Operator will arrange an appointment to be sure the called party will be at the telephone when you call. The charge is the same as for a person-to-person call. A messenger will be sent on any person-to-person call for a small additional charge.

COLLECT CALLS. If you want the charge for an out-of-town call to be put on the bill of the called party, tell the Operator when you make the call that it is a "Collect Call." If someone at the called telephone agrees to accept the charges, you will be connected. Otherwise there will be a small report charge.

Charges are the same as for other out-of-town calls, except that for station-to-station calls of 20c or less they are higher.

Collect calls cannot be made to foreign countries except Canada and Cuba.

You get faster service when you call by number.

Keep a handy list for your out-of-town numbers.

Charges for Out-of-Town Calls

Effective January 15, 1937, subject to change without notice

REDUCED RATES to points in the United States, Canada and Cuba are in effect from 7 p. m. to 4:30 a. m. and all day Sunday; and to certain International points between 5 p. m. and 5 a. m. and all day Sunday.

CHARGES BEGIN on station-to-station calls when the called telephone answers; on person-to-person calls when conversation begins with the desired person.

MINIMUM CHARGES are for 3 minutes except on station-to-station charges of 25c or less, when they are for 5 minutes. Rates for additional minutes may be obtained by dialing or calling Operator.

U. S. GOVERNMENT TAX applies on all calls of 50c or more, as follows: 50c to 99c, 10c each; $1.00 to $1.99, 15c each; $2.00 or more, 20c each.

A SMALL REPORT CHARGE is made on person-to-person calls when the telephone is reached but not the person.

Apartments & Apartment Houses—
The following is a list of Apartment and Apartment Houses generally known by street addresses. Apartment Houses generally known by given names are listed alphabetically under those names. Numbered streets with a locational or directional designation such as "Bay", "East", "West", etc., will be found under "B", "E", "W", while numbered streets without such designations will be found arranged numerically following the named streets.
